

Mould Remediation Foundation

Principles of Mitigation, Assessment and Remediation

This 1 day course is designed for office based insurance, housing and maintenance staff wishing to gain knowledge of the principles of mediation assessment and remediation of mould.

Those responsible for assessing fungal contamination in buildings have a duty of care to others and are expected to possess a myriad of skills and knowledge in the related subjects. Introducing the principles and practices of mould remediation (as it applies to buildings), this course provides the framework on which professionals can build upon.

This course is trained Live Online via Teams, or can be delivered in person at your location.

Why Choose City & Guilds?

City & Guilds has over 130 years of experience in vocational education, having been created in response to the needs of businesses to develop a pipeline of well-trained talent. Built on the heritage to create vocational services that continue to meet the changing needs of businesses in the UK and around the world. City & Guilds accreditation is an instantly recognisable mark of quality and credibility and recognises the process and delivery of a bespoke training programme.

Course Benefits and Aims

Delegates who successfully pass the course and accompanying assessment will be awarded the nationally recognised Dewpoint Professional in Mould Remediation Foundation, accredited by City & Guilds. The course will enable the delegate to develop the necessary knowledge required to undertake claims handling with reference to Mould Remediation enable them to:

- Manage Mould remediation claims in a more efficient and effective manner.
- Develop a better understanding of Mould Remediation and its various stages of mitigation, remediation and be able to identify and challenge 'bad practice'.
- Add value to the respective organisations and perform with more confidence.

Entry Requirements

The Dewpoint Professional Mould Remediation Foundation is open to all persons (regardless of experience) responsible for claims handling/management, within the insurance, damage management or housing industry. Although no previous knowledge is required, some knowledge and understanding of the insurance, damage management or housing industry would be useful.

Assessment

Assessment of this course takes place at the end of the days training and undertaken on-line as a multiple choice assessment of 25 questions. PASS: 80% or above, REFER: 0-79%.

Where can you go from here?

Once you have attained Course Certification, you are encouraged to further develop your knowledge and skills by completing the Advanced course in Mould Remediation, resulting in a broader and deeper knowledge of understanding.

Additionally, you could complete the associated Dewpoint Professional: Fire and Smoke Restoration and Water Damage Restoration course.
